

NORTH-EAST

INDUSTRIAL BATTERIES, INC.

**Manufacturers of
Industrial Batteries
and Industrial Chargers
since 1968**

QUALITY • PERFORMANCE • DEPENDABILITY

Northeast Industrial Batteries, Inc. is a third generation, family-owned business that was established in 1968 with years of experience in manufacturing and distributing industrial batteries and UL® and CUL® approved chargers to the material handling industry.

Headquartered in Bristol, PA, we provide sales and service in Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, and Maryland. We also ship our products throughout the United States and can service these locations through our affiliation with Crown Battery.

When you need power, you need it quickly.

Northeast Industrial Batteries, Inc. assembles their batteries using top quality flat plate cells purchased from major manufacturers and trays provided by a leader in the industry. All charger transformers are wound and tested in house. With our large inventory of cells, trays, and transformers, we can respond to typical battery or charger orders in 2-4 business days. That is days, not weeks! Whether delivering with our own trucks, or using one of our partners in the trucking industry, we provide the equipment you need when you want it.

Outstanding service and value.

- A full 5-year, 1500-cycle warranty on all cells 9-plate and larger.
- 5 and 7-plate products carry an 18 month, 450-cycle warranty.
- Northeast Industrial Batteries, Inc. chargers are protected by a 1-year parts and labor, 10-year limited parts warranty.

If you need service on a battery or charger, our technicians have combined experience in excess of 70-years and can work on virtually all makes and models of industrial batteries and chargers.

Our exclusive Guaranteed Power Program and our 10/11 Program provide unique ways to finance your power requirements. Let us help you design the most affordable way to meet the power requirements of your facility.

Quality reconditioned batteries or chargers.

Northeast Industrial Batteries, Inc. has one of the largest inventories in the Mid-Atlantic Region. We test all batteries to 83% or better capacity and provide new looking products with 1-year unconditional warranty. Our chargers are refurbished and carry a 30-day warranty.

Full service provider of allied products.

Whether you are looking to build a battery room, or simply install watering systems and electrolyte monitors in your facility, we can meet your needs. We can help you with the design of your room, the installation of the equipment, and even provide water services for your fleet. Please call us for further details.

Service and delivery available.
